### INTRODUCTION

---

I taught primary school students when I was in college. I am very patient with children. When I first started working, I got a chance to teach at a winter camp for kids. I know how to get along with children. I think about their feelings from a kid's point of view. I understand their needs and become friends with them. I have a Chinese Teacher Qualification Certificate. I know the educational ideas of educators like Comenius and Piaget. I am happy to put these ideas into practice.
